

ADDENDUM No. 1

Purchaser: Ministry of Finance and Economic Development, Government of Somaliland

Project: Somali Enhancing Public Resource Management project (SERP)

Contract title: Development, Supply, Configuration and Implementation of a Fit for-Purpose Integrated Tax Administration System (ITAS) for Somaliland

Country: The Government of Somaliland

Grant No.: IDA-E1360/TF-B9920

RFP No.: SO-MOF-SL-547065-NC-RFP

Date: June 2, 2026

S #	ITB Clause	Page #	Existing Clause	Addendum No1
1	Section II Proposal Data Sheet ITP Clause 23.1	48	For Proposal submission purposes_only, the Purchaser's address is: Attention: Project Coordinator, SERP Project-MoF&ED Street Address: Road 1, Hargeisa Floor/Room number: 2nd Floor, PFM Building, Opp. of the Ministry of Education and Science Hargeisa, City: Hargeisa Country: Government of Somaliland The deadline for Proposal submission is: Date: 16 th June 2026 Time: 1:30 PM Somaliland Time	For Proposal submission purposes_only, the Purchaser's address is: Attention: Project Coordinator, SERP Project- MoF&ED Street Address: Road 1, Hargeisa Floor/Room number: 2nd Floor, PFM Building, Opp. of the Ministry of Education and Science Hargeisa, City: Hargeisa Country: Government of Somaliland The deadline for Proposal submission is: Date: 29th June 2026 Time: 1:30 PM Somaliland Time
2	Section II Proposal Data Sheet ITP Clause 26.1		The Proposal opening shall take place at: Street Address: SERP Project Implementation Unit, Ministry of Finance & Economic Development 2nd Floor, PFM Building, Opp. of the Ministry of Education and Science Hargeisa, Republic of Somaliland. City: Hargeisa Country: Somaliland Date: 16 th June 2026 Time: 1:30 PM Somaliland Local Time	The Proposal opening shall take place at: Street Address: SERP Project Implementation Unit, Ministry of Finance & Economic Development 2nd Floor, PFM Building, Opp. of the Ministry of Education and Science Hargeisa, Republic of Somaliland. City: Hargeisa Country: Somaliland Date: 29 th June 2026 Time: 1:30 PM Somaliland Local Time
3	Section VII - Requirements of the Information System	Page 208	IRD-39 Application data MUST be in a MS-SQL relational database management system	IRD-39 A relational database management system (RDBMS) must be provided as part of the procurement. MOFED/IT's current architectural standard for the RDBMS is MS-SQL 2022 Standard edition. A suitable RDBMS is permitted that meets the requirements of the ITAS. However, the proposed RDBMS must have the following minimal characteristics: referential integrity; support for creating and executing stored procedures; advanced strategies and techniques for locking entities, syllables and their parts; application and data integration; support high security level; built-in support for advanced business reporting; ready-made search mechanisms; tools for creating reports and importing and exporting data in standard formats built-in; possibility to turn off services that are not needed; access and management of servers and use of data via web interface; data replication capability supported; facilities for full or incremental database backup/recovery without loss in functionality to the database
4	Section VII - Requirements of the Information System	Page 255	NEW CLAUSE TEC-08	Bidders are required to provide training in any other proposed RDBMS under the requirements of TRN-05, training in the administration and monitoring of the proposed RDBMS must be specifically identified in their preliminary training plan. This is because MOFED/IT staff do not have experience in other RDBMS. MOFED/IT's current architectural standard for the RDBMS is MS-SQL 2022 Standard edition which is in mainstream support by Microsoft until January 11, 2028, and has extended support until January 11, 2033.
5	Section VII - Requirements of the	Page 258	F. Development and Testing Environment Hardware and Software (HSW) "The equipment will be installed in the MoF/IT data center; configuration is expected to be	replaced with

S #	ITB Clause	Page #	Existing Clause	Addendum No1
	Information System		provided by the successful bidder in cooperation with the data center staff. The MoF/IT data center has space for additional racks but has insufficient free rack space for the Development and Testing equipment; a standard rack (the existing rack is a 42U Intelligent Series Rack without a glass door) must be included in the hardware provided. MoF/IT has determined that their HPE MSA 2060 FC SAN does not have sufficient space for the disk drives required for the development and testing storage and so the supplied server(s) must be provisioned with sufficient SSD's or Enterprise high performance HDDs to meet the anticipated development and testing requirements. This does not change the requirement for information required for about the production hardware, software and licensing (as per requirement TEC-02/03) which will be separately procured by the Purchaser."	MOF&ED confirms that the required hardware infrastructure is available. This includes sufficient servers for the development environment as well as the testing environment. Accordingly, the bidder is not required to supply hardware for the testing and development environment. The bidder is only required to provide the appropriate hardware sizing, technical recommendations, and any compatibility requirements necessary to support the implementation, configuration, testing, and development activities.
		Page 258	HSW 01: Provide the server, storage and rack(s) plus associated software to establish the development and testing environment(s) taking account the above notations about rack specifications and disk requirements.	Reviewed and not required
		Page 258	HSW 02: Follow the requirements of TEC 02 / - 03 for listing the hardware and software that is being supplied plus space requirements.	Reviewed and not required
		Page 258	HSW 03: By line item, in the relevant financial bid forms, specifically include the hardware and software for the development and testing environments.	Reviewed and not required
		Page 258	HSW 04: Electrical Power: All active (powered) equipment should operate on voltage range and frequency range, e.g., 220/110v +/- 20v, 50Hz +/- 2Hz]. All active equipment should include power plugs standard in SLN.	Reviewed and not required
		Page 258	HSW 05: Environmental: All equipment should operate in environments of 10-40 degrees centigrade, 20-90 percent relative humidity and 0-50 grams per cubic meter of dust.	Reviewed and not required
		Page 258	HSW 06: Safety: All equipment should operate at noise levels no greater than 55 decibels.	Reviewed and not required
		Page 258	HSW 07: All electronic equipment that emits electromagnetic energy should be certified as meeting EN 55022 and EN 50082-1, or equivalent, emission standards.	Reviewed and not required
6	Section VII	Page xxx	TEC-02. The Bidder MUST present in "FORM TEC 2 Listing 3rd party software and hardware" a detailed listing of all hardware and software with product number, description and quantity for both the primary Data Centre and the BDC that will support the production environment. The hardware Listing must be supplemented with the VM specification/requirement by environment (e.g. <ul style="list-style-type: none"> • Number of VMs • Number of cores per VM • Storage per VM • Memory per VM, etc.) for their solution. Rack space required for the anticipated hardware to support the development, testing and production environments must be identified in the Listing	TEC-02. The Bidder MUST present in "FORM TEC 2 Listing 3rd party software and hardware" a detailed listing of all hardware and software with product number, description and quantity for both the primary Data Centre and the BDC that will support the production and non-production environments. The hardware Listing must be supplemented with the VM specification/requirement by environment (e.g. <ul style="list-style-type: none"> • Number of VMs • Number of cores per VM • Storage per VM • Memory per VM, etc.) for their solution. Rack space required for the anticipated hardware to support the development, testing and production environments must be identified in the Listing
