

FODDER VALUE-CHAIN STORAGE

KEY PARAMETERS

20.0 m x 14.0 m footprint | 4.0 m to eaves | 5.0 m structural bays | 200 mm high-level ventilation
Open-plan storage building with smooth plastered walls, reinforced-concrete frame and red corrugated-metal gable roof

FODDER VALUE-CHAIN STORAGE - DIMENSIONED FLOOR PLAN

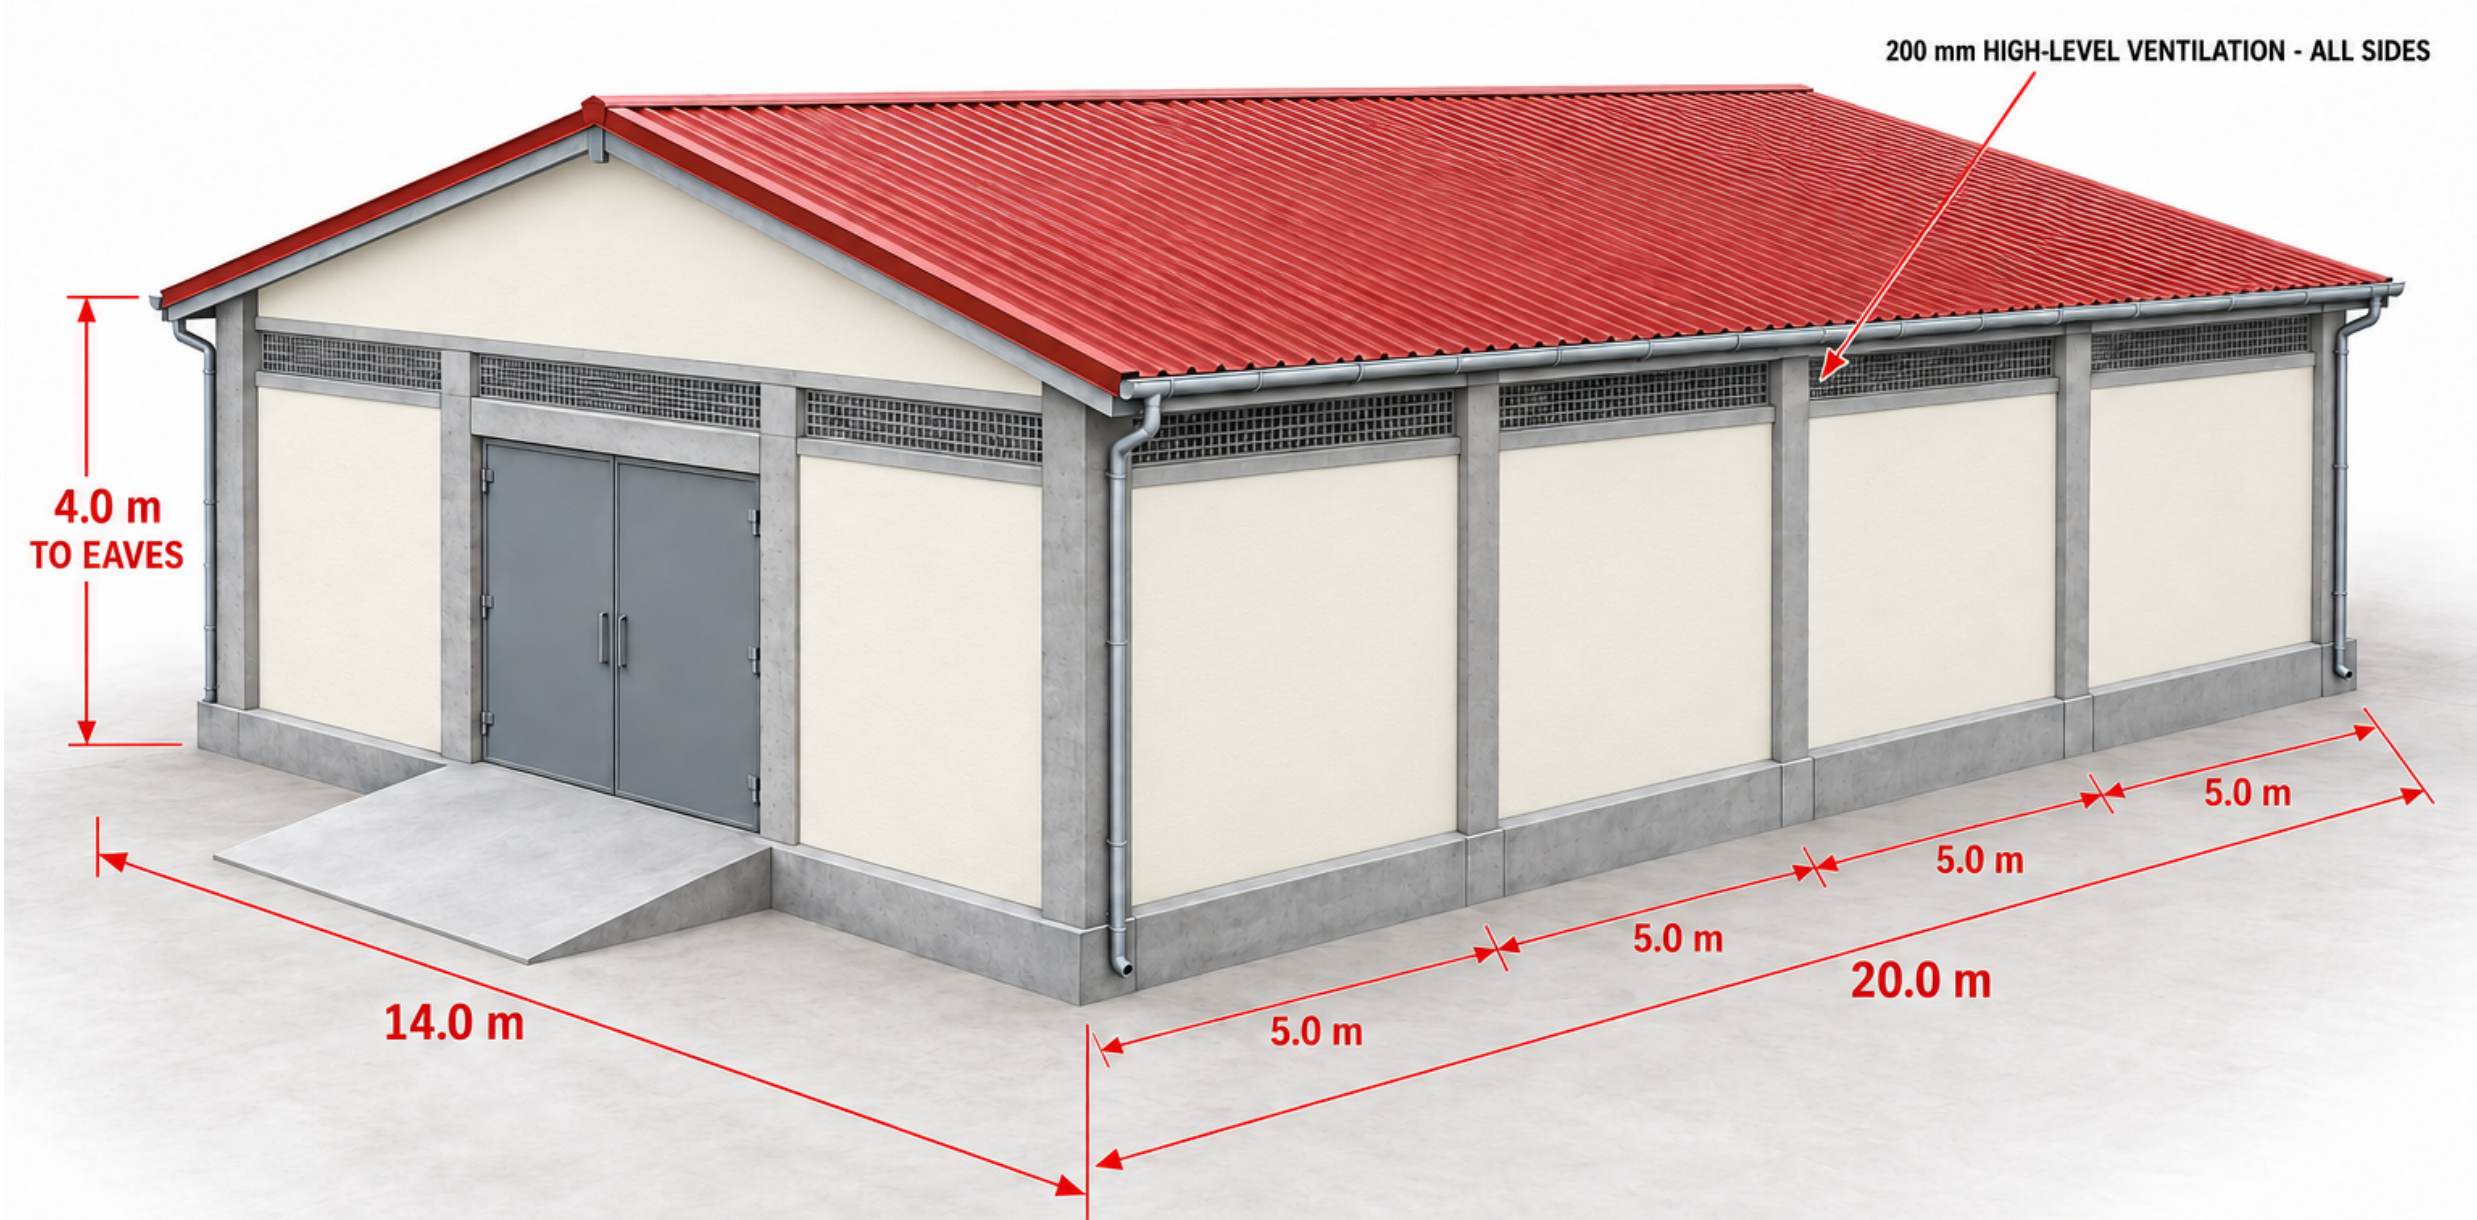

DESIGN NOTE

The floor plan establishes the 20.0 m x 14.0 m external footprint, open storage arrangement, central double-leaf access door and reinforced-concrete perimeter columns at 5.0 m bays along the long walls.

DRAWING INFORMATION

Drawn No.: 201 Status: DESIGN
Scale: STANDARD

FODDER VALUE-CHAIN STORAGE - DIMENSIONED 3D VIEW

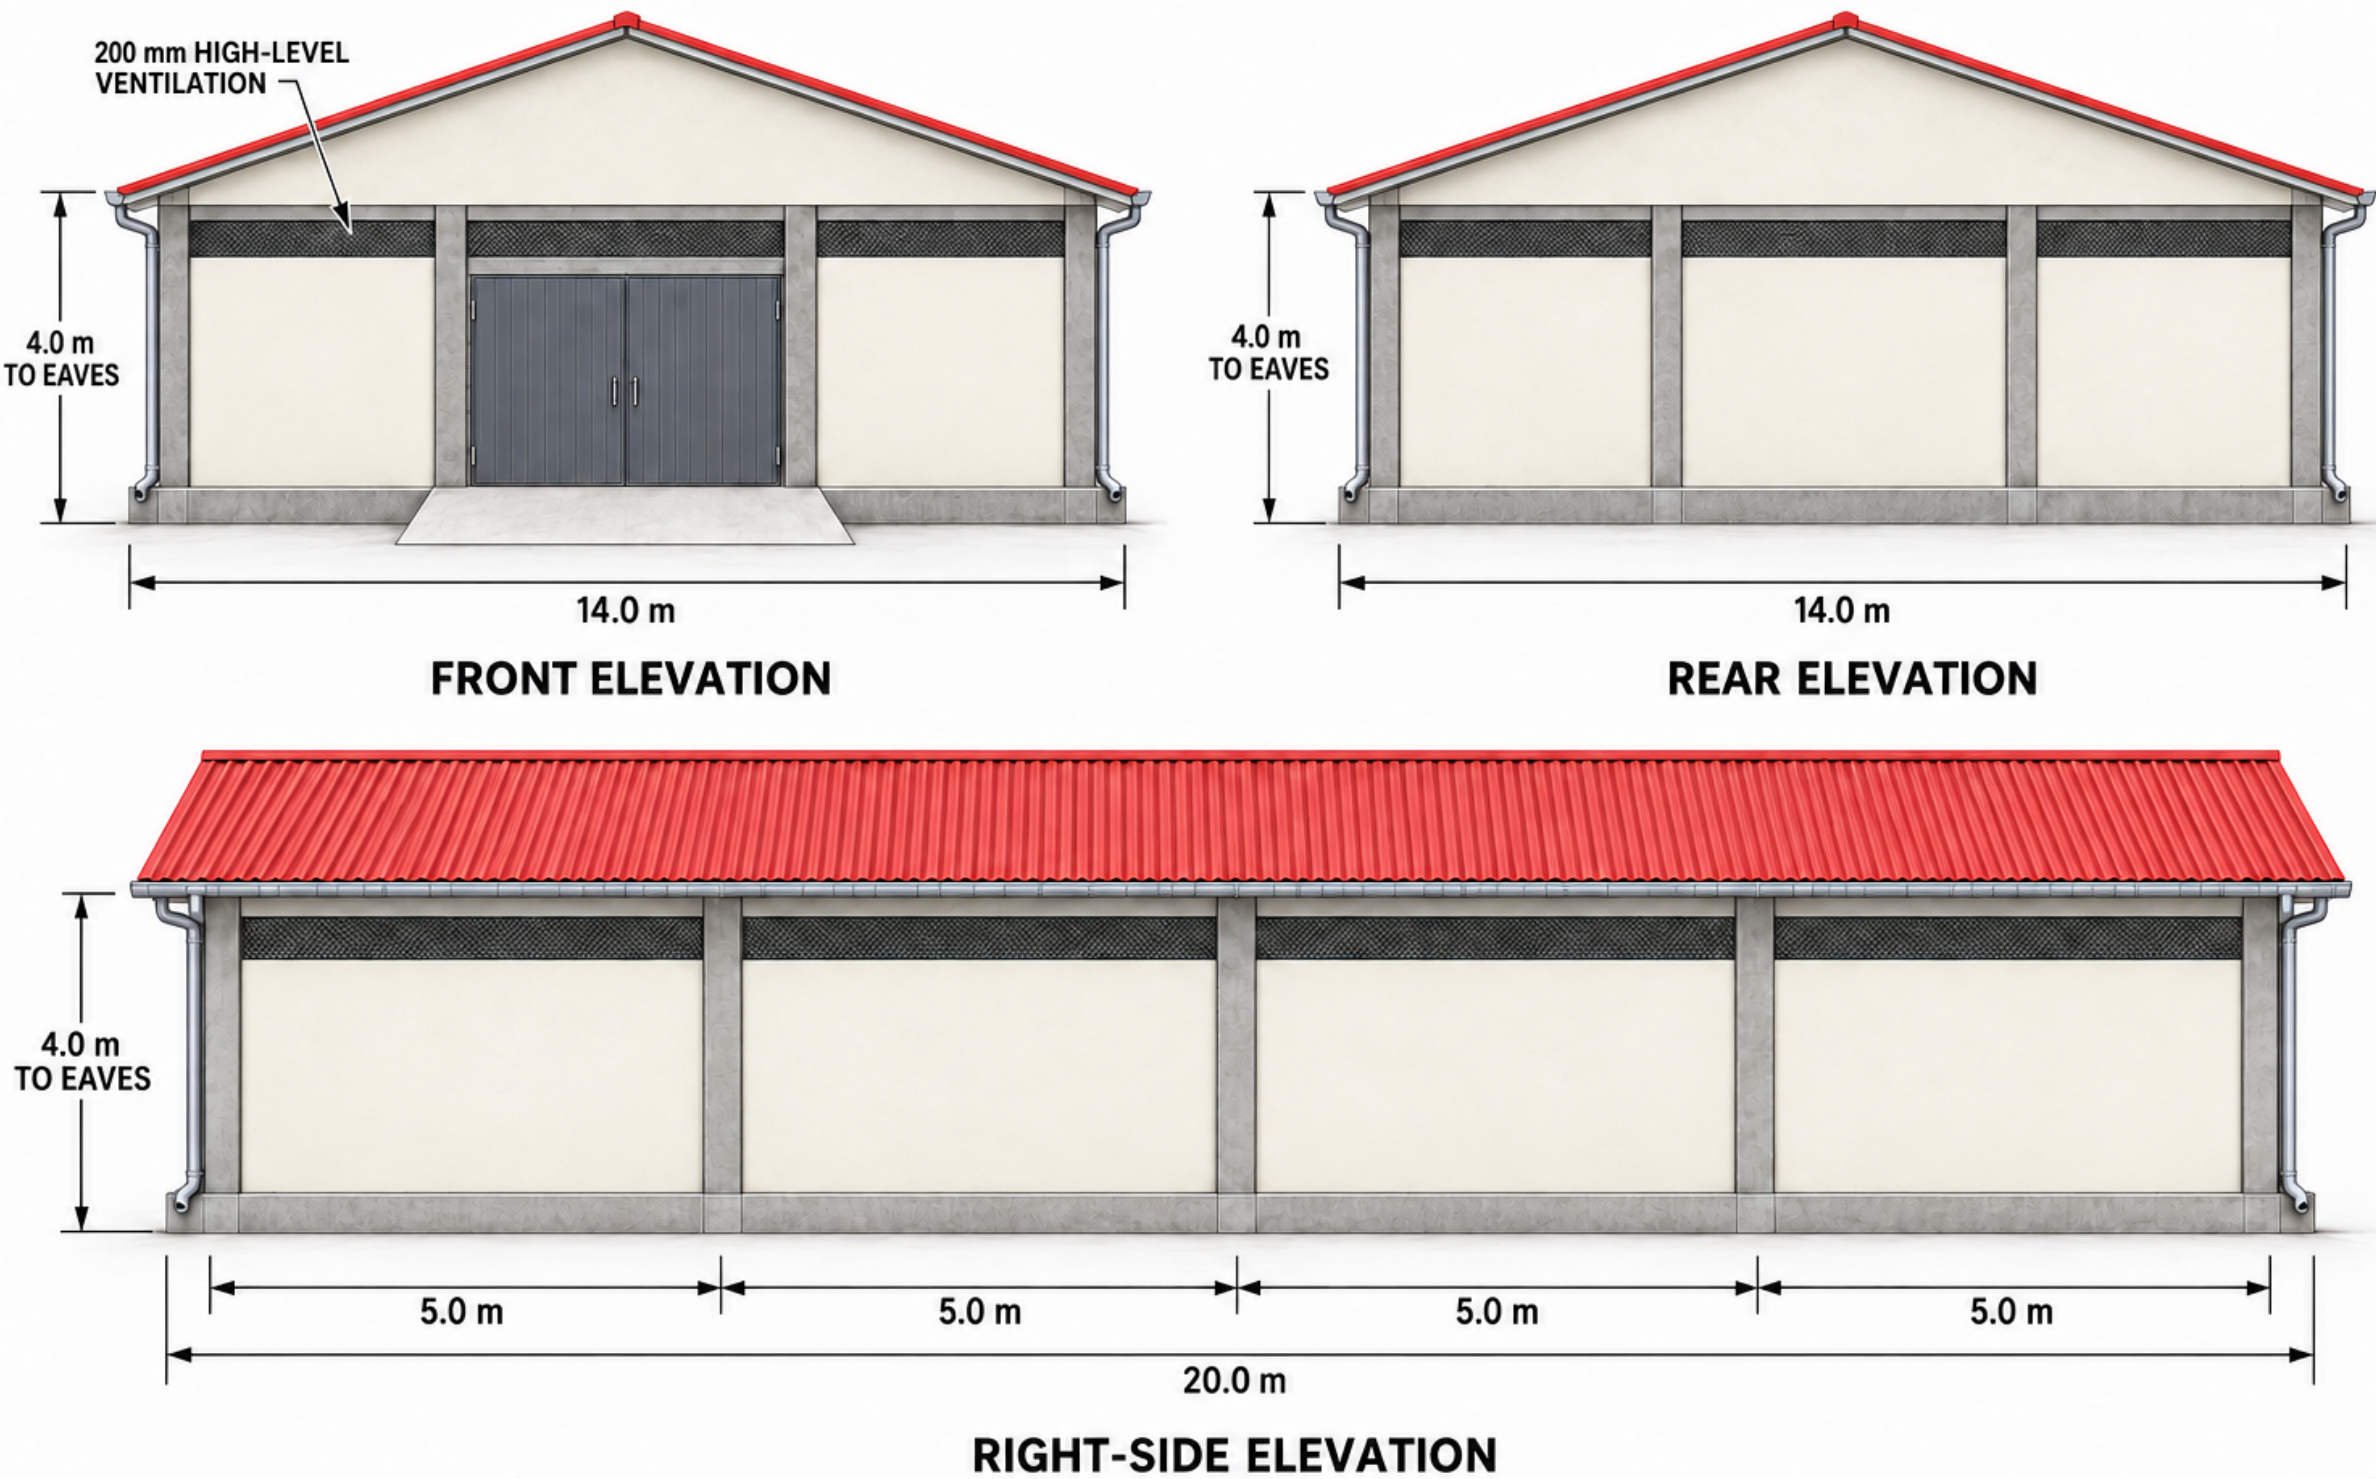

DESIGN NOTE

The 3D concept illustrates smooth plastered wall finishes, reinforced-concrete framing, a raised plinth and access ramp, continuous 200 mm screened high-level ventilation, roof drainage and a red corrugated-metal gable roof.

Scale: STANDARD

FODDER VALUE-CHAIN STORAGE — EXTERIOR ELEVATIONS

DESIGN NOTE

Exterior elevations coordinate the front access, rear wall and 20.0 m side elevation. All openings, member sizes, foundations and connections remain subject to detailed structural and site-specific design.
