SUPPLIER CODE OF CONDUCT

ABOUT THE SUPPLIER CODE OF CONDUCT

Oxfam is a group of organizations working together internationally to find lasting solutions to poverty and injustice. We want a world where people are valued and treated equally, enjoy their rights as full citizens and can influence decisions affecting their lives.

In achieving this vision and upholding the responsibility we bear towards our beneficiaries, donors and partners, Oxfam is committed to integrity in its operations and supply chains. This means that we comply with applicable legal requirements, we run our operations in accordance with a strict set of ethical standards and we follow integrity principles in our relationships with suppliers. We actively promote these principles and standards, and expect all Oxfam suppliers to demonstrate commitment towards them.

The Supplier Code of Conduct sets out “Standards” – these are specific principles and standards in the areas of human and labour rights, environmental impact and anti-corruption measures. Whilst recognising that local laws and cultures differ considerably from one country to another, Oxfam is an International Non-Governmental Organisation (INGO), therefore, the Supplier Code of Conduct is based on international and UN standards, including the [United Nations Global Compact](#)¹, the [Universal Declaration of Human Rights](#)², the [Ethical Trading Initiative Base Code](#)³ and the [IASC six Core Principles Relating to sexual Exploitation and Abuse](#)⁴.

BUSINESS RELATIONSHIP

Oxfam expects all its suppliers to adhere to this Supplier Code of Conduct. Suppliers are requested to read, agree and acknowledge that this Supplier Code of Conduct provides the minimum standards expected of Oxfam suppliers, and that the Standards apply to suppliers and their employees, subsidiary entities, and subcontractors. The Supplier Code of Conduct should be clearly communicated to any such affiliated persons/entities in local languages so that is understood by all.

Expectations for Oxfam and suppliers are defined as follows:

SUPPLIERS SHOULD EXPECT OXFAM TO:

- ✓ Ensure that our supply activities comply with the Standards and all applicable legal requirements
- ✓ Act impartially and objectively in all our purchasing activities and to keep written records where appropriate to demonstrate that our actions have been fair and above reproach
- ✓ Maintain an unimpeachable standard of integrity in all their business relationships
- ✓ Not terminate purchase arrangements without due regard to all material circumstances, and appropriate communication
- ✓ Commit to supporting and working with them to achieve conformance with the Standards
- ✓ Commitment to working to improve Oxfam’s policies and practice to enable them to be able to achieve conformance with the Standards

OXFAM EXPECTS ITS SUPPLIERS TO:

- ✓ Maintain full compliance with all laws and regulations applicable to their business
- ✓ Accept responsibility for the conditions under which goods and services are provided including any work that is subcontracted
- ✓ Be open and transparent about the standards in their supply chain and operations, and provide information requested by Oxfam to enable our assessment of them
- ✓ Support workers to realise their rights and minimise the barriers which prevent workers from achieving them.
- ✓ Demonstrate ability to meet local laws related to the Standards
- ✓ Demonstrate commitment to achieve conformance with the Standards

Qualification to these expectations: Where speed of deployment is essential in saving lives, Oxfam will purchase necessary goods and services from the most appropriate available source.

NO DISCRIMINATION, in hiring, compensation, access to training, promotion, termination or retirement based on race, caste, national origin, religion, age, disability, gender, marital status, sexual orientation, union membership or political affiliation.

REGULAR EMPLOYMENT: To every extent possible work performed must be on the basis of a recognised employment relationship established through national law and practice.

NO CHILD LABOUR: a) There shall be no new recruitment of child labour b) Children and young people under 18 years of age shall not be employed at night or in hazardous conditions c) Companies shall develop or participate in and contribute to policies and programmes, which provide for the transition of any child found to be performing child labour to enable her/him to attend and remain in quality education until no longer a child d) These policies and procedures shall conform to the provisions of the relevant International Labour Organisation (ILO) standards.

A SAFE AND HYGIENIC WORKING ENVIRONMENT: shall be provided, bearing in mind the prevailing knowledge of the industry and of any specific hazards.

Adequate steps shall be taken to prevent accidents and injury to health arising out of, associated with, or occurring in the course of work, by minimising, so far as is reasonably practicable, the causes of hazards inherent in the working environment. Accommodation, where provided, shall be clean, safe, and meet the basic needs of the workers.

FAIR PAYMENT: a) No worker should pay for a job - the costs of recruitment should be borne, not by the worker, but by the employer b) Wages should be paid directly to the worker c) Workers shall not be held in debt bondage or forced to work for an employer to pay off an incurred or inherited debt.

WORKING HOURS are not excessive and comply with national laws and benchmark industry standards, whichever affords greater protection.

MONITORING & COMPLIANCE

MONITORING

DUE DILIGENCE:

As a charitable organisation, Oxfam must take care to protect its assets and funds. AUDIT:

Any audit requirements are detailed in the terms and conditions of business

DATA PROTECTION:

Oxfam is legally bound to ensure that all personal details held by the organisation relating to any individual or entity are kept secure and according to international data protection standards.

Oxfam is committed to and expects its suppliers to comply with the Standards outlined in this Supplier Code of Conduct. Both parties should be open and transparent with each other and report any instances of non-compliance.

Oxfam recognises that work towards good ethical practice is a continual process and suppliers may not be able to meet all the Standards set out in the Supplier Code of Conduct immediately. Oxfam encourages suppliers to continually improve their workplace conditions and will endeavour to support suppliers where necessary in putting systems in place to manage standards and to set practical goals.

Where non-compliance is reported, Oxfam reserves the right to demand corrective measures. Oxfam takes an approach of **zero tolerance to inaction** with its suppliers. Oxfam will terminate a contract where the conduct of suppliers demonstrably violates the Standards, and there is no willingness to address any specific instances which arise or address underlying weaknesses in systems which led to the incident, within a reasonable time period.

Important note: if any check against international sanctions lists results in a positive match of a supplier, Oxfam reserves the right to terminate any agreement with such supplier and/or exclude such supplier from any procurement process. Oxfam may take additional steps as it considers necessary in the circumstances.
