## **11. Acceptance of quotation**

WARDI is not bound to take an immediate decision on the acceptability or unacceptability of the offers at the time of their opening.

## **12. Rejection of the offer**

The bid offer can be rejected for the following reasons:

- a. The bidder is not presented in accordance with this Term of reference;
- b. the quotation form or any document which is part of the bid document is not signed;
- c. The bidders offer imposes certain basic conditions unacceptable to WARDI
- d. The offered price is above the approved budget by more than 5%.

WARDI is not bound to accept any offer received and reserves the right to waive any minor defect in an offer, provided, however, that such minor defect (i) does not modify the substance of the offer and (ii) does not change the relative ranking of the Bidders.

### 13. Evaluation process

The tender bids will be registered in an appropriate document immediately after reception and the bidder will receive proof of its consignment. This deadline has to be considered as a fix term and WARDI will not accept any delay justification even if due to the post service.

If WARDI, either on its own initiative or in response to a request from a prospective contractor or supplier, provides additional information on the bid documents, it must send such information in writing to all other prospective contractors or suppliers at the same time.

### 14. Tender evaluation

The evaluation steps:

#### a) Preliminary evaluation

The aim at this stage is to check that bids comply with the requirements of the TOR. Bids that are submitted with missing or incomplete documentation are dismissed before further evaluation.

<b><u>Preliminary check</u></b>	<b><u>Criteria</u></b>
Bill of Quantities form with the financial offer (Annex A) – signed and stamped	Pass/Fail
Schedule of the work Form (Annex B) – signed and stamped	Pass/Fail
Child Protection Policy (Annex C) – signed and stamped	Pass/Fail
Code of Conduct and Ethics Policy (Annex D) – signed and stamped	Pass/Fail

#### b) technical evaluation

After analyzing the bid deemed to comply in administrative terms, the evaluation committee will rule on the technical and quality admissibility of each bid, classifying it as technically compliant or non-compliant. The technical evaluation will be based on both the task to be carried out under the bid, and the professional ability of the contractor or supplier.

To facilitate the examination, evaluation, and comparison of bids, the evaluation committee may ask each contractor individually for clarification of their bid, including breakdowns of prices. The request for clarification and the response must be in writing only, but no change in the price or substance of the bid may be sought, offered, or permitted, except to correct arithmetical errors or formulae.

After checking the completeness of the offer and the qualification of the bidders, the following technical and qualitative criteria are used to evaluate and compare the offers:

<b>Criteria</b>	<b>Score</b>
<b>1. Completion of rehabilitation:</b>	
This category is based on the proposed time to complete the proposed work. Delivery/completion days, lowest number of days/offered number of days	40
<b>2. Financial criteria</b>	
The offered prices will be weighed in relation to the lowest price and receive the proportional number of points (Lowest price\offered price *60 points)	60

A maximum of 40 points can be given per bidder. After the technical evaluation, only those proposals that have passed this stage will be evaluated financially.

c) financial evaluation

After the steps above, the remaining valid quotations will be evaluated financially. The offered prices will be weighed in relation to the lowest price and receive the proportional number of points (lowest price\offered price\*60 points).

d) Award criteria

The evaluation committee will not choose based on the lowest price alone but will be awarded the best, and receive an offer based on value for money, price, quality, compliance with international norms, and delivery time. The experience of the contractor in the performance of similar contracts (if any) will be as well a criterion for selection.

**15. Notification on awarding of the tender and signature of the contract**

The selected contractor will be informed in writing that it has won the contract. For this purpose, WARDI will send to the company a contract to be signed in two original copies. After 48 hours, the selected contractor will have to return the signed contract if it does not find observations. Otherwise, the contractor or company will have to seize WARDI for erratic omissions or observations. WARDI will not be responsible for any error or omission when the company has already signed the contract. The company will also send WARDI all payment details to facilitate payments.

**16. Methods of payment**

The contractor will receive 90% of the total payment after completing 100% of the work, which must be verified by WARDI’s engineer. Upon reaching 100% completion, contingent on verification by the engineer and the presentation of a commercial invoice. After verification, a certificate of completion will be issued, and both parties must sign a handover certificate. The final 10% of the total payment will be held as retention and will be released three weeks after all rehabilitation work on the the upgrading of 2 Boreholes, once the completion certificate is issued and the handover certificate is signed by both parties. Payments will be made via bank cheque or bank transfer within 14 days of the presentation of the invoice.

<b>Progress Payment Number</b>	<b>Description</b>	<b>Amount</b>
Progress Payment 1	After completion of 100%, Verified by WARDI engineer	
Retention Payment 2	4 weeks after the full rehabilitation /Upgrading of 2 Boreholes with Civil Works, Equipment, and Solarization	
<b>Total</b>
