

TERMS OF REFERENCE FOR CONTRACTORS AND SUPPLIERS FOR PROVISION OF LIFE-SAVING WASH ASSISTANCE IN DINSOOR DISTRICT (TENDER NUMBER: STS/SHF/DINSOOR/1-2025)

LOT 1 – Construction and Rehabilitation of Sanitation Facilities

Background:

STS is implementing a humanitarian WASH project in Dinsoor District, Bay Region, to improve access to safe, dignified, and inclusive sanitation facilities for internally displaced persons (IDPs) and vulnerable host communities.

Scope of Work:

- Construct 50 flood-proof emergency latrines with long-lasting/expandable superstructures, offset pits, vent pipes, lockable doors, and roofing, located at least 30m from any groundwater source and 1.5m above the water table.
- Construct 8 disability-friendly latrines with ramps, handrails, wider doors, handwashing stations, and solar lighting for security.
- Rehabilitate 6 institutional latrines (2 in Waberi]School, 2 in Howlwadaag School, and 2 in Dinsoor Main Hospital) to restore safe, gender-segregated, and functional facilities.
- Ensure compliance with WASH Cluster technical standards, protection guidelines, and disability inclusion requirements.

Deliverables:

- Completed latrines meeting all specifications and protection standards.
- Handover certificates, completion reports, and photographic evidence.

Bidders Shall Provide:

- Detailed methodology and workplan, including community engagement approaches.
- Staffing and equipment deployment plan.

LOT 2 – Rehabilitation of Water Systems

Background:

This lot focuses on restoring critical water infrastructure to improve access to safe and sustainable water sources in rural and IDP settings.

Scope of Work:

- Rehabilitate 5 shallow wells with installation of new hand pumps, wellhead protection, fencing, and drainage.
- Rehabilitate 1 strategic borehole (Jilaalow Water Supply System) including: Rehabilitation of 40m³ elevated water tanks, installation of hybrid solar-powered

pumping system with all electrical and mechanical components, connection to distribution network and water kiosks.

- Ensure water quality testing and chlorination during commissioning.

Deliverables:

- Fully operational water sources meeting WASH Cluster standards.
- Water quality test reports, handover certificates, and “before & after” photos.

Bidders Shall Provide:

- Detailed rehabilitation methodology describing materials, equipment, and quality control measures.
- Staffing and implementation plan, including timelines.

LOT 3 – Construction of New Water Points and Pipeline Extension

Background:

The aim is to improve water access for IDP settlements through new water points linked to rehabilitated boreholes.

Scope of Work:

- Construct 6 new water kiosks in specified IDP locations.
- Install 3,000 metres of pipeline extension (4-inch PVC main line, 3-inch and 2-inch branches) with fittings, reducers, valves, and associated civil works.
- Trench excavation (minimum 700mm depth), backfilling, and site restoration.

Deliverables:

- Operational kiosks connected to the rehabilitated borehole.
- As-built drawings, completion reports, and photographic evidence.

Bidders Shall Provide:

- Construction methodology covering pipeline installation techniques, quality control, and safety measures.
- Workforce and equipment plan.

LOT 4 – Supply and Distribution of Hygiene Kits

Background:

Hygiene kits will be distributed to targeted households to improve health and hygiene practices in Dinsoor.

Scope of Work:

- Supply and deliver 800 hygiene kits as per STS specifications (including jerry cans, buckets, soap, aqua tablets, sanitary pads).
- Distribute kits to designated project locations in coordination with STS staff.

Deliverables:

- Items delivered in full, on time, and in good condition.
- Signed beneficiary distribution lists and photographic evidence.

Bidders Shall Provide:

- Delivery schedule and approach to ensure safe and efficient distribution.

LOT 5 – Supply of Project Vehicle

Background:

The vehicle will support field operations for WASH project implementation.

Scope of Work:

- Supply a reliable 4x4 project vehicle suitable for field conditions in Somalia.
- Vehicle must be in excellent mechanical condition (new or very low mileage), with valid documentation.

Deliverables:

- Vehicle delivered, inspected, and accepted by STS.
- Logbook, ownership documents, and warranties provided.

Mandatory Requirements for All Lots:

- Completed Price Schedule (breakdown in the attached price schedules; not applicable for Lot 5).
- Company profile including legal status, organisational structure, key personnel, and past performance.
- Signed PSEA Declaration, Child Protection Declaration, and Anti-Corruption Declaration (forms attached to the advert).
- Copy of valid business registration certificate.
- Tax compliance certificate (if applicable).

Submission Details: Bids must be submitted through email **procurement@stsint.org**, clearly marked with the Tender and Lot Numbers as the Subject Line. Tenders to be received on or before 24th August 2025. Tenders in sealed envelopes can also be dropped at our offices located at Jaalle Siyaad Street, Danwadagta area, next to Palma Hotel, Wadajir District, Mogadishu-Somalia
