**DESCRIPTION: Expression of Interest –Procurement of Tailoring Equipment and accessories kits for TVET students**

World Vision Somaliland, through the EU-BREACH project, is working to improve the livelihoods and resilience of vulnerable communities in Burco District. The project targets ten rural communities and Internally Displaced Persons (IDP) settlements, focusing on sustainable development interventions, including skills development for youth. One of the core components of the EU-BREACH project is the promotion of Technical and Vocational Education and Training (TVET) programs. These programs aim to equip young people—particularly those from marginalized backgrounds—with practical skills that enhance their employability and income-generating potential. The training areas were selected based on local market demand, youth interest, and opportunities for self-employment. Upon completing their training, TVET trainees were guided through the process of developing viable business plans. A competitive selection process was conducted, and the most promising and feasible business plans were identified. The beneficiaries with the best plans are now set to receive business start-up kits, enabling them to transition from training to entrepreneurship and income generation. Our aim is to connect with companies that have strong experience in procuring TVET kits especially –**Procurement of Tailoring Equipment and accessories kits for TVET students.**
